124 Spider Lusso in Forte Black Metallic

# 124 spider

## Sky-high possibilities

The original FIAT 124 Spider, with its Pininfarina design, was an immediate sensation as the 1967 European Car of the Year — and remains as fresh and relevant as it was over 50 years ago. Its multilink rear suspension, disc brakes and agile performance are partly why it remains a favourite among collectors.

I24 Spider Abarth in Puro White Tri-Coat Pearl

# 70 YEARS FAST

**1949**  
**2020**

**1949**  
Abarth & C., the automobile aftermarket company started by Karl Abarth, is a success, selling more than 4,500 performance exhaust systems and employing 40 people.

**1959**  
Karl Abarth creates the FIAT® 500 Abarth®, which breaks six international records at Monza, averaging a speed of 109 km/h (68 mph). The Scorpion logo is inspired by Karl's feisty Scorpio astrological sign.

**1972**  
The racetrack legacy of Abarth is lent to a street-legal rally version of the I24 Sport Spider, the FIAT Abarth I24 Rally. That year, the I24 won the European Rally Championship.

**2020**  
The latest generation of the FIAT I24 Spider Abarth carries on in the tracks of its iconic predecessors with unmistakable style and performance.

**CELEBRATING 70 WICKED YEARS** Over a half-century ago, a race car visionary named Karl Abarth cultivated a “go faster than yesterday” philosophy that became the cornerstone of a legendary performance empire. Today, the FIAT I24 Spider Abarth aggressively embodies those words, easily earning the Scorpion on its marque.

- 164-hp 1.4L MultiAir® Turbo I-4 engine
- 184 lb-ft of torque
- Bilstein® performance suspension
- Front strut tower bar
- Sport steering wheel with Abarth logo

- Quad bright-tip exhaust
- Sport Mode Selector
- Brembo® performance four-wheel antilock disc brakes — Available
- Mopar® Hand-Painted Heritage Racing Stripe — Available

**THE DEVIL IS IN  
THE ABARTH® DETAILS**

The competitive vibe of FIAT® 124 Spider Abarth starts with menacing exterior cues like the available Mopar® Hand-Painted Heritage Racing Stripe and available Brembo® disc brakes. The performance-inspired interior takes it to the next level with available RECARO® Alcantara® leather-trimmed racing seats and Red gauges in the Sport instrument cluster. Aluminum accent pedals and Matte Grey accents make for a strong finish.

*124 Spider Lusso with Saddle leather-trimmed seats*

FIAT® 124 Spider manages to create what other roadsters can't: space to store things. In addition to generous trunk space, the meticulously designed interior offers refined materials, quality, available leather and Italian-inspired design.

*124 Spider Lusso with Saddle leather-trimmed seats*

## Driving beats

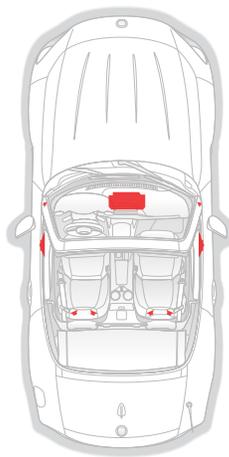

# MUSIC

The available Bose® Audio System delivers premium audio clarity with nine speakers — including two Bluetooth® speakers located in each headrest. They work to deliver clear, detailed sound to both driver and passenger, while Bluetooth with Hands-Free Communication lets you take phone calls and stream music so you can keep your hands on the wheel!

With the FIAT Connect 7.0, you'll enjoy full access to the world at large via an advanced multimedia centre with a 7-inch full-colour display, multimedia control knob and MP3 player. The available SiriusXM satellite radio<sup>3</sup> comes with a one-year subscription.

Stay fully plugged in and connected with two USB ports, an auxiliary input and the multimedia control knob.

The available GPS Navigation<sup>4</sup> and standard ParkView® Rear Back-Up Camera<sup>2</sup> help you keep your bearings straight.

Dual headrest speakers deliver music to both the driver and the passenger with headphone-style clarity and are available with the Bose Audio System.

# Easy. Breezy.

## **OPEN-AIR ADVENTURE**

This is high design that's truly accessible. Engineers created a manual soft top that effortlessly opens and closes. An assist spring enables top-down fun in three seconds or less, while automatic window adjustments mean drivers only have to think about the road ahead. Acoustic windshield glass, added insulation and aerodynamic enhancements further ensure the cabin is remarkably quiet. All told, it's clear the FIAT® 124 Spider has the makings to be your perfect getaway car.

# TURBO

## An overachiever under the hood

With its innovative, Class-Exclusive<sup>5</sup> turbo engine, the FIAT® I24 Spider is powered by a 1.4L MultiAir® Turbo 4-cylinder with twin intercoolers that delivers up to 164 horsepower\* and 184 lb-ft of torque. Bring out this engine's best performance with either the standard 6-speed manual transmission with short-throw shifting or the available 6-speed automatic transmission.

## Get up and really go

Either way, the innovative 1.4L MultiAir Turbo engine serves up great mid-range torque for easy passing when you need it most — so you can enjoy a great ride no matter what lies ahead. For those times when the road isn't exactly smooth-sailing, the FIAT I24 Spider is equipped with a double-wishbone front and a multilink rear suspension that enhances steering response and handling.

\*160 hp on FIAT I24 Spider Classica and Lusso models; 164 hp on Abarth® model.

## Intelligently honed

Your reputation behind the wheel gets a boost — the short-throw shifting of the 6-speed manual transmission, Sport Mode Selector (only on Abarth), electric power steering system, electronic traction control and Electronic Stability Control (ESC)<sup>6</sup> all make for tighter corners and thrilling straightaways.

Near-perfect 50/50 weight distribution, lines that compel your eyes to follow along, exquisite materials and fine finishes all contribute to the extraordinary, captivating appeal of the FIAT I24 Spider.

# Plans of action

## Electronic Stability Control (ESC)<sup>6</sup>

This feature assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. Standard.

## Park-Sense<sup>®</sup> Rear Park Assist<sup>2</sup>

When the vehicle is in Reverse, these available sensors help detect objects in the rear pathway, providing an audible and visual warning. Available.

## 4 Standard Air Bags<sup>7</sup>

Front-seat-mounted side and advanced multistage front air bags all work together, helping provide protection.

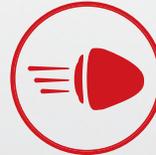

## High-strength Steel

This innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

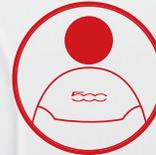

## ParkView<sup>®</sup> Rear Back-Up Camera<sup>2</sup>

Provides a wide-angle view with grid lines on a colour touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

## Bi-functional Halogen Projector Headlamps

Help provide more controlled illumination for increased visibility. Standard.

## Front-seat Head Restraints<sup>8</sup>

In the event of a rear-end collision, these restraints help reduce injuries by minimizing the gap between the driver and front-passenger head restraints and the occupant's head. Standard.

## Tire Pressure Warning Lamp

Illuminates a warning icon at the moment any tire pressure falls below safe driving criteria. Standard.

## Remote Entry

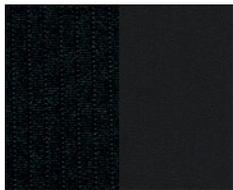

Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the available security alarm,<sup>9</sup> this device also arms and disarms that system. Standard.

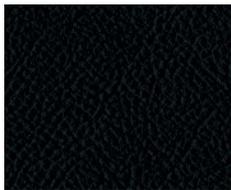

## Blind-Spot Monitoring and Rear Cross-Path Delection<sup>2</sup>

Assists when changing lanes by alerting you to traffic in your vehicle's blind-spot zones with illuminated icons in exterior mirrors. Available.

New Sport cloth and available leather-trimmed seats  
 New instrument-panel bezel finish  
 New cluster graphics  
 New door and console bezel finish  
 Dark headliner and pillars  
 New Sport floor mats

Any coach will tell you that great performance comes from a mix of talent and attitude — FIAT® 500X Sport brings plenty of both. Fan favourites include a Sport steering wheel with Alcantara® inserts and paddle shifters, aluminum pedal covers and Sport floor mats with Red and Grey dual accent stitching.

FIAT 500X Sport shows its true team spirit by bringing exterior colours inside and surrounding you with winning updates. The latest roster includes a new instrument-panel bezel finish, new door and console bezel finish, Dark headliner and pillars, and new cluster graphics.

# Control matters

The FIAT® Dynamic Selector puts three customized driving modes at your fingertips:

**AUTO MODE** is designed for the everyday, routine stuff — it will smooth things out to help optimize fuel efficiency, emissions and comfort.

For those who'd prefer a little more road feel, a little more control, there's **SPORT MODE**. With it, the Electronic Stability Control (ESC)<sup>6</sup> and steering calibrations are tuned for a sportier feel and faster driving response. Additionally, SPORT MODE optimizes the transmission shift points for improved performance and accelerator feedback.

**TRACTION+ MODE** maximizes low-speed traction — the kind you need when things get a little slick or bumpy. It all works by providing additional wheel-slip through specially tuned chassis controls and a more direct engine response.

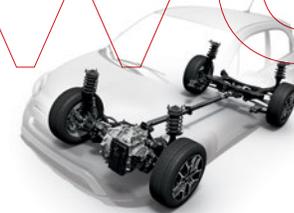

FIAT 500X Trekking Plus in Arancio.  
Properly secure all cargo.

# TURBO

## Power at the ready

FIAT 500X features the standard 1.3L MultiAir® Turbo direct-injection engine with MultiAir valve-actuation technology — which includes Engine Stop/Start (ESS) Technology. It delivers 177 horsepower and a torque rating of 210 lb-ft. When you say “go,” it really moves.

# awd

## Confidence abounds

Every FIAT 500X comes equipped with the don't-think-twice-about-it confidence of All-Wheel Drive (AWD). This technologically advanced standard feature arms 500X drivers with an innovative drive system that brings unique functionality and improvements over conventional AWD systems. It works through a variable wet clutch located in the rear drive module. This clutch supplies the right amount of torque for whatever the weather, road or driver throws at it ... be it slippery conditions or an aggressive launch.

You could say it's a no-brainer: this is a system that requires no input from the driver when in AUTO MODE — all actions (including the AWD activation) are intelligently and seamlessly engaged based on conditions and driving style. While the system boasts leading traction management advances, it also works with the Electronic Stability Control (ESC)<sup>6</sup> system to improve dynamic handling.

## The genius within

FIAT 500X knows when to fully engage its AWD; its secret is a disconnecting rear axle that automatically selects Front-Wheel Drive (FWD) or AWD based on various inputs when in AUTO MODE. It completely removes power to the rear axle when FWD performance is adequate during regular driving conditions.

AT YOUR BECK AND CALL

# UCONNECT®

Uconnect®

With the next generation of Uconnect systems, your FIAT® 500X becomes your portal to the world. A large 7-inch touchscreen and intuitive hands-free technologies deliver essential information and entertainment while keeping you focused on driving.<sup>1</sup> These systems offer a wide range of services: radio, phone, messaging, available navigation,<sup>4</sup> Integrated Voice Command<sup>1</sup> with Bluetooth® and more. Listen to and/or charge media players, iPhones and other smartphones.

Good notes

# MUSIC

Works with Apple CarPlay

**APPLE CARPLAY<sup>10</sup>** is a smarter, safer way to use an iPhone inside your vehicle. It seamlessly integrates your favourite apps and features with the Uconnect touchscreen and Siri<sup>11</sup> voice control, allowing you to stay focused on the road. Standard.

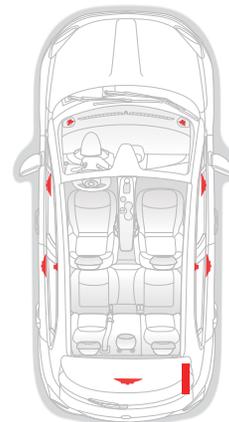

**android auto**

**ANDROID AUTO<sup>TM10</sup>** Designed with safety and convenience in mind, Android Auto gives you the right information for the road ahead. Easily access your favourite music with Google Play Music, and get where you need to go with Google Maps. With your Google Assistant on Android Auto, you can keep your eyes on the road and your hands on the wheel while using your voice to help you with your day. Just say, "Ok, Google." Standard.

**SIRIUSXM SATELLITE RADIO<sup>3</sup>** Access to 150 channels offered on this satellite radio, including news, commercial-free music, sports, talk and entertainment (one-year subscription included). Available.

The ultimate concert hall: the FIAT 500X Trekking Plus, shown with premium leather-trimmed seats, is surrounded with a specially tuned, available BeatsAudio<sup>TM</sup> speaker configuration.

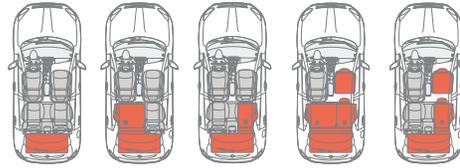

The available BeatsAudio Premium Sound System creates studio-quality sound just the way the artist intended. It features 8-channel performance with 506 watts of power, eight speakers and a 6.5-inch subwoofer specifically tuned for the FIAT 500X.

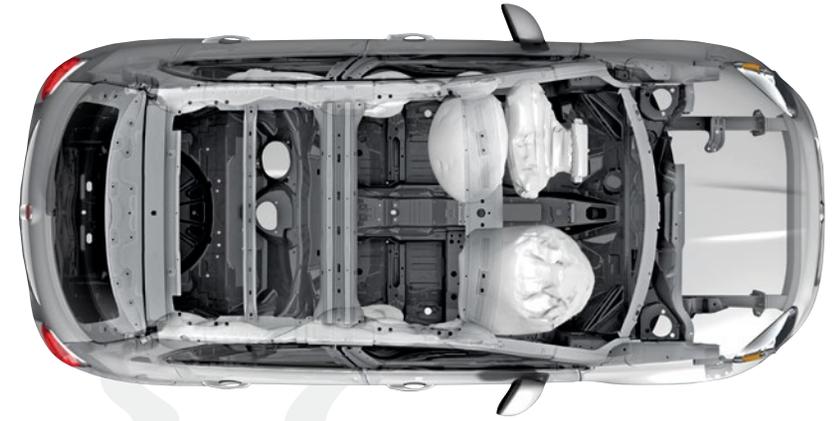

# Configure it out

**CAPACITY FOR FUN** Super-flexible seating configurations mean your passengers get as much consideration as your belongings. Packing is practically effortless and incredibly efficient with 60/40 split-folding rear seats that welcome all the longer, wider and taller things you used to rule out.

**NEW PERSPECTIVES** An available dual-pane power sunroof broadens the view with a sliding panoramic panel. These glass panels match seamlessly with the body and work to create a wide, spacious feeling.

# Stress-free zone

**Electronic Stability Control (ESC)<sup>6</sup>**  
This feature assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. Standard.

**Park-Sense<sup>®</sup> Rear Park Assist<sup>2</sup>**  
When the vehicle is in Reverse, these sensors help detect objects in the rear pathway, providing an audible and visual warning. Available.

**Park-Sense Front Park Assist<sup>2</sup>**  
This system alerts the driver when objects come in close proximity in front of the vehicle. Available.

**7 Air Bags<sup>7</sup>**  
Front-seat-mounted side, front and rear side, knee and advanced multistage front air bags all work together, helping to provide protection. Standard.

**Hill Start Assist**  
Maintains brake pressure during uphill stop/start moments to help prevent rollback — for a smooth start every time. Standard.

**High-strength Steel**  
This innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

**Blind-Spot Monitoring and Rear Cross-Path Detection<sup>2</sup>**  
This feature will constantly monitor the space between you and other vehicles. When a side or rear blind spot is encroached, this feature notifies you via illuminated icons on sideview mirrors. Available.

**Lane Departure Warning with Lane Keep Assist<sup>2</sup>**  
Tracks the vehicle's lane position via mounted cameras. The system provides a visual warning and corrective steering input. Available.

**Full-Speed Forward Collision Warning with Active Braking<sup>2</sup>**  
Uses radar sensors to help detect when you may be approaching another vehicle too rapidly. Sends audible and visual alerts and provides limited braking. Available.

**ParkView<sup>®</sup> Rear Back-Up Camera<sup>2</sup>**  
Provides a wide-angle view with dynamic grid lines on a colour touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

**Adaptive Cruise Control<sup>2</sup>**  
This system automatically adjusts highway cruising speed to help maintain a preset distance between you and the vehicle ahead. Available.

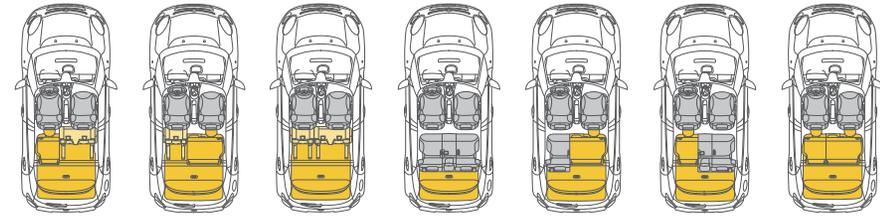

## GRAPHITE EDITION

### Select enhancements over Lounge

- Grey roof
- Grey exterior mirrors
- Power dual-pane sunroof
- 17-inch machined aluminum wheels

## IMPRESSIVE cargo room

## Fitting praise

### FLEXIBLE PLANS

Multiple seating configurations — 54 in all — allow 500L to accommodate whatever you have in store for the day. With up to 2,775-L (98-cu ft) total interior volume, packing is practically effortless and incredibly efficient thanks to 60/40 split-folding rear seats with the Tilt, Tumble & Slide function. You can recline seatbacks to the preferred angle, create legroom by sliding seats and add cargo space with the tumbling action.

### FLOATING ROOF DESIGN

The 500L owes much of its roomy, open entertaining space to its unique roof design. The roof is available in body-colour, Nero (Black) or Bianco (White) colour options.

500L Trekking in Rosso

500L Trekking in Blue Tomado

### A SUPERIOR OUTLOOK WITH 360° VIEWS

FIAT® 500L builds on traditional FIAT cues with a small-wide architecture that is the foundation for the vehicle's open, loft-like interior. It features glass-framed pillars that support its expansive dual-pane power sunroof — an available floating roof that provides spectacular 360-degree views.

500L Cargo | 26

Step on it

In FIAT® 500L, the innovative 1.4L MultiAir® Turbo engine delivers 160 horsepower and 184 lb-ft of torque. Its forceful performance is made all the more impressive thanks to a talented partner — a 6-speed automatic transmission. It offers drivers an extra degree of control with the ability to downshift and upshift via the gear selector. Adding to the vehicle's nimble nature, MacPherson front struts and rear shock absorbers with KONI® Frequency Selective Damping (FSD) technology help make for handling that's truly responsive.

## *Turbo* Power = Possibility

FIAT 500L delivers more than ample power to make the most of its expansive capacity. Its innovative 1.4L MultiAir Turbo engine utilizes advanced cast and structural aluminum to reduce overall mass for great efficiency. The engine's turbocharger spins at up to 230,000 rpm to create impressive torque and power, while the innovative MultiAir variable valve system allows for optimized intake air control and efficiency. In short, every trip in the 500L offers huge potential.

TECHNOLOGY THAT'S BEYOND

# UCONNECT®

## Technology that inspires

Designers approached the interior from a driver-centric standpoint, beginning with the FIAT® 500L instrument panel — a blend of simplicity and Italian refinement. The Electronic Vehicle Information Centre (EVIC) clearly delivers trip and vehicle information, while other essentials are placed within reach.

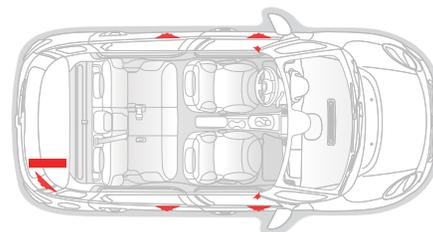

FIAT 500L features Uconnect 4 and Uconnect 4 NAV<sup>4</sup> radio systems, both with:

- 7-inch touchscreen display
- Integrated Voice Command<sup>1</sup> with Bluetooth<sup>®</sup>
- SiriusXM satellite radio<sup>3</sup> with one-year subscription
- Android Auto™<sup>10</sup> smartphone compatibility
- Apple CarPlay<sup>10</sup> integration for iPhone
- Hands-free calling and text delivery<sup>1</sup>
- GPS Navigation<sup>4</sup> with intuitive map graphics (Uconnect 4 NAV<sup>4</sup> only)
- Available BeatsAudio™ Premium Sound System

**(SiriusXM)** **SIRIUSXM SATELLITE RADIO**<sup>3</sup> Enjoy the perks of satellite radio, including commercial-free music, plus sports, news, talk and entertainment (one-year subscription included). Standard.

**android auto** **ANDROID AUTO**<sup>10</sup> Designed with safety and convenience in mind, Android Auto gives you the right information for the road ahead. Easily access your favourite music with Google Play Music, and get where you need to go with Google Maps. With your Google Assistant on Android Auto, you can keep your eyes on the road and your hands on the wheel while using your voice to help you with your day. Just say, "Ok, Google." Standard.

**Works with Apple CarPlay** **APPLE CARPLAY**<sup>10</sup> A smarter, safer way to use an iPhone inside your vehicle, integrated with the Uconnect touchscreen and Siri!<sup>11</sup> Make calls, access music, send and receive messages, get directions optimized for traffic conditions and more. Standard.

**beatsaudio**  
The available BeatsAudio Premium Sound System brings its acoustic expertise to enhance the 500L experience.

AVAILABLE AUTOMATIC TEMPERATURE CONTROL (ATC)

AVAILABLE GPS NAVIGATION<sup>4</sup>

REMOTE USB PORT

AVAILABLE HEATED FRONT SEATS

# Extraordinary measures

## Electronic Stability Control (ESC)<sup>6</sup>

This feature assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. Standard.

## Park-Sense<sup>®</sup> Rear Park Assist<sup>2</sup>

When the vehicle is in Reverse, these sensors detect objects in the rear pathway, providing an audible and visual warning. Available.

## 7 Standard Air Bags<sup>7</sup>

Front-seat-mounted side, front and rear side, knee and advanced multistage front air bags all work together, providing protection. Standard.

## Hill Start Assist

Maintains brake pressure during uphill stop/start moments to help prevent rollback — for a smooth start every time. Standard.

## High-strength Steel

This innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

## ParkView<sup>®</sup> Rear Back-Up Camera<sup>2</sup>

Provides a wide-angle view with dynamic grid lines on a colour touchscreen, aiding drivers when the vehicle is in Reverse. Standard.

## Bi-functional Halogen Projector Headlamps

Provide more controlled illumination for increased visibility. Standard.

## Front-seat Active Head Restraints<sup>8</sup>

In the event of a rear-end collision, these restraints activate to help reduce injuries by minimizing the gap between the driver and front-passenger head restraints and the occupant's head. Standard.

## Tire Pressure Monitoring System

Gives crucial, pinpointed information in the Electronic Vehicle Information Centre (EVIC) at the moment any tire pressure falls below safe driving criteria. Standard.

## Remote Entry

Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the standard security alarm,<sup>9</sup> this device also arms and disarms that system. Standard.

(1) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. (2) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. (3) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at [siriusxm.ca](http://siriusxm.ca) (4) Never program while driving. GPS mapping and available 3-D navigation may not be detailed or available in all areas or reflect current road regulations. (5) Based on two-seat roadsters in *WardsAuto* Small Specialty segmentation (Nissan 370Z and Mazda MX-5). (6) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (7) The Advanced Front Air Bags in this vehicle are certified to the Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (8) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (9) Vehicle must be locked and system activated for alarm to sound. (10) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Apple CarPlay requires a compatible iPhone connected via USB cable to the Uconnect system. Android Auto requires the Android Auto App on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates may apply. (11) Requires an iPhone with Siri. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. (12) Not compatible with all garage door openers.
